

## **Aeturnum Nominated as System Integrator Partner of the Year by Business Intelligence Solution Provider Pentaho**

**Westford, MA, March 25, 2009** - Aeturnum, Inc. ([www.aeturnum.com](http://www.aeturnum.com)), a provider of software development services and solutions has been nominated as Systems Integration Partner of the Year by Pentaho Corp., the commercial open source alternative for business intelligence. The "Partner of the Year" awards will be announced at Pentaho's upcoming [Partner Summit 09, BI Acceleration](#), taking place in Menlo Park, California on April 2nd and 3rd.

Aeturnum, which provides value-added services around Pentaho BI Suite Enterprise Edition as part of its systems integration and consulting services, has been nominated as the Systems Integrator Partner of the Year along with Accenture and Saama Technologies.

Pentaho's partner program attracts a diverse group of leading firms across multiple segments. Aeturnum provides value-added services and pre-built packaged solutions around the Pentaho Business Intelligence (BI) Suite for the finance, banking, telecommunications, retail, utilities and technology industries.

Aeturnum also worked closely with [Pentaho and Netezza](#) on the interoperability and certification testing of Pentaho's BI Suite Enterprise Edition with Netezza data warehouse appliances. The certification brought together the two enterprise-class technologies to help organizations address large-scale data warehousing and [BI](#) challenges with proven, lower cost alternatives to traditional data warehouse offerings.

"We're very pleased to be recognized by Pentaho for our systems integration work," said Rajat Bhakhri, president and CEO of Aeturnum. "Many IT

organizations expend valuable time and capital developing and integrating business intelligence capabilities. By combining our best practices in deployment and development with the robust business analytics and data mining capabilities in Pentaho's BI suite, we are helping users quickly discover strategic high-value data points within large volumes of data, while substantially lowering their total cost of ownership."

### **About Aeturnum**
