

NEWS RELEASE

Aeternum Named Systems Integrator Partner of the Year by Pentaho

*Development Services and Solution Provider Recognized for
Deep BI Expertise and Customer Implementation Success*

Westford, MA, April 29, 2009 - Aeternum, Inc. (www.aeternum.com), a provider of software development services and solutions, has been named Systems Integrator Partner of the Year by Pentaho Corp., the commercial open source alternative for business intelligence. The award recognizes Aeternum's strong knowledge, expertise and success deploying and supporting Pentaho's suite of enterprise-class business intelligence solutions. The partner of the year awards were announced at the Pentaho User Conference, *BI Acceleration*, earlier this month.

Aeternum provides value-added services around Pentaho's BI Suite Enterprise Edition as part of its systems integration and consulting services. It also has extensive expertise deploying non-open source commercial business intelligence and data warehousing solutions including Microsoft SQL Server, Oracle Business Intelligence, Netezza, Informatica and Kickfire.

The Aeternum BI team leverages these tools and employs best practices to enable its clients to gain valuable insights into business performance that can improve and accelerate their business decision making. This includes helping analysts integrate data from different sources, dash-boarding key metrics for senior management and setting up daily reporting tools and processes for operational managers to deliver the right information to the right people at the right time.

“It’s a great honor to be recognized by Pentaho for our systems integration work with their business intelligence solution and it’s especially gratifying when it comes against well-respected companies like Accenture,” said Rajat Bhakhri, president and CEO of Aeturnum. “Pentaho’s rich solution set enables us to deliver very robust and flexible business analytics and data mining capabilities to our mutual customers at a very attractive total cost of ownership.”

About Aeturnum
