

## Aeturnum Café Bundle SharePoint for Internet Sites

*Extend Your Business; Empower Your Partners; Personalize Your Customers' Interactions*

Whether you are trying to expand your organization's reach to potential customers, grow your existing business through upsell/cross-sell capabilities, or accelerate repeat business by enabling customer self-service, extranets, portals and websites can play a critical role in supporting your business.

Over the last nine years, Microsoft SharePoint has redefined and extended the role of intranets and extranets to facilitate collaboration and empower employees, customer and partners both inside and outside the enterprise. With SharePoint, organizations are connecting different constituents to one another like never before so knowledge and expertise can be shared and leveraged across the enterprise. They are also gaining from this increased collaboration in the way of stronger, more lasting relationships.

### **Aeturnum Café Bundle: SharePoint for Internet Sites** **Create and deploy an extranet on SharePoint in just 3 weeks**

Aeturnum is an award-winning Microsoft partner specializing in making relevant and valuable information readily accessible to internal and external constituents via Microsoft SharePoint. Working with Microsoft, we have put together the Aeturnum Café Bundle: SharePoint for Internet Sites, to extend and enable next generation customer and partner extranets in a matter of weeks. This solution bundle builds on your existing SharePoint investment to:

- Provide a common platform for intranet, internet and extranet
- Create customer and partner-focused extranets that enable collaboration between your employees, partners and the people that matter most, your customers
- Enable media-rich sites with powerful content authoring capabilities
- Build employee and customer driven communities through social media features
- Empower customers via robust self-service sites and deflect routine calls from your contact centers

As part of the solution bundle, Aeturnum will review your current infrastructure, gather requirements and develop a detailed design and project plan. The design session will be conducted on site so all interested roles – IT or business – can participate.

### **The Bottom Line**

Aeturnum Café Bundle: SharePoint for Internet Sites will take you from design to creating and deploying an extranet in as little as three weeks for a fixed cost. You can choose to deploy the solution customizing out-of-the-box standard features or add in more advanced capabilities based on the needs of your business.
